To: RECOVER Evaluation Team (ET) and Greater Everglades (GE) Sub-team

From: RECOVER Executive Committee (REC)

Subject: Follow –up on Extreme High/Low Performance Measure Issue Resolution

On 5/19/09 the REC convened a conference call with members of the RECOVER Leadership Group (RLG) to discuss the proposed peer review of the science associated with the Extreme High/Low Performance Measure. Because this is a new task that requires additional budgetary support, RLG approval was necessary to consider it a RECOVER activity. At the meeting a quorum of RLG members approved pursuing a peer review as a FY09 RECOVER task. The REC will continue to work with the ET and GE sub-team to implement this peer review.
